

Cutting Edges

We carry large stocks of various sizes of cutting edge material to suit most applications

We stock wear blade material for the leading edges on buckets in various sizes and grades, from 100mm x 16mm up to 300mm x 40mm in 270HB and 400HB grade materials.

We also have double bevel blade material as well for reversible bolt on edges which we can cut and drill to suit your requirements

We also carry stocks of high abrasion 400HB + plate and can manufacture high quality profile cut bucket edges up to 100mm thick with both straight and spade/v shape edges
